off the law of water supply WHG

**contract no. F 1050/10064142**

**The TÜV TECHNISCHE ÜBERWACHUNG HESSEN GMBH**

herewith certifies that the

**company:** **Buss-SMS-Canzler GmbH**  
**Kaiserstr. 13 – 15**  
**35510 Butzbach**

**for the production facility:** **Buss-SMS-Canzler GmbH**  
**Kaiserstr. 13 – 15**  
**35510 Butzbach**

**holds the qualification for a specialized company according to WHG (§ 62)**

for activities such as assembly, installation, maintenance and repair of pipeline systems as well as on equipment for storage, filling, handling, manufacturing, treatment and use of materials hazardous to water.

Should the above named materials additionally be flammable, highly flammable or extremely flammable the specialist firm is only allowed to become active at external installations provided that the potentially explosive area has been suspended by the operator before starting of operations. The same applies for works in potentially explosive atmospheres. In potentially explosive atmospheres which are within the facility the specialist firm works on its own responsibility.

The activities of the certified specialist include the processing of steel and non-iron metals by using the joining techniques welding, brazing and screwing. According to its operating characteristics the specialist firm has to qualify for the assembly of security-relevant assembly parts.

**On the base of the supervisor contract of 29.04.1999 the examination of the company has been carried out successfully and the qualification for a specialized company WHG has been prolonged until.**
